

Bottle personnel onboarding

Screen 1 — Create Account Goal: Fast entry + tie to their real sales channel (Instagram) Fields • Full Name • Phone Number (SMS verification) • Instagram Handle • City • Password System Actions • Verify phone via OTP • Reserve unique username + profile URL → openclub.app/{username} CTA Continue	
Screen 2 — Build Your Profile Goal: Make them immediately “bookable” Fields • Profile Photo (required) • Bio (short, optional but encouraged) Optional • Primary Club (can skip) • Cities they work in (default = selected city) System Actions • Generate public profile page • Attach Instagram handle visibly • Generate booking link Preview shown on screen • Profile photo • Bio • “Book a Section with [Name]” CTA Save & Continue	
Screen 3 — Connect to Clubs Goal: Legitimacy + access to inventory UI Search + select clubs Examples: Sekai Clé Bungalow Flow • Tap club → Request Access • Status: Pending / Approved System Logic • Club receives request in dashboard	

• Club approves → bottle girl gains access to events + sections Important Allow skip — don't block onboarding CTA Continue	
Screen 4 — Add Clients (CRM Seed) Goal: Turn their existing network into platform leverage Inputs • Name • Phone Number • Nickname (optional) UI Options Add Client Import Contacts (optional later feature) Skip System Actions • Store as private CRM list • Enable future notifications CTA Continue	
Screen 5 — Start Selling (Activation Screen) Goal: Behavior shift → Instagram → OpenClub funnel Header Your Booking Link Is Ready Show Link openclub.app/alexis Instruction (tight, clear) Add this link to your Instagram bio so customers can book sections directly with you.	

BOTTLE PERSONNEL mobile App

STRUCTURE • 5 bottom tabs My Night Events Guest List	
--	--

Wallet Profile	
TAB 1: MY NIGHT (PRIMARY) Purpose: run the night + trigger demand This is where they live during a shift. Everything critical is here. 1. KPI BAR (STICKY TOP) Tables Tonight Guests Tonight Clients Bookings Today Example: 3 Tables 14 Guests 62 Clients \$185 2. MY NIGHT ACTION ITEMS Primary Actions (push-first, no SMS) Everything here should be: • immediate • actionable • tied to revenue or guest experience STRUCTURE Each item = Trigger → Context → Action ACTION ITEM TYPES 1. ARRIVAL MANAGEMENT Trigger: Upcoming reservations Example: "Mike arriving at 9:30 PM" Actions: • Notify customer (push) • Send reminder 2. OPEN INVENTORY (SALES PUSH) Trigger: Unsold sections Example: "2 VIP sections available tonight" Actions: • Notify VIPs • Notify Favorites • Notify All Clients 3. CLIENT RE-ENGAGEMENT Trigger: Inactive customers (30+ days)	

Example:

“12 past clients haven’t booked in 30+ days”

Actions:

- Send event link
- Send guest list invite

Message Templates (Tight + High Conversion)

- “I’m working tonight — book your table now”
- “2 VIP sections left — reserve before they’re gone”
- “Guest list open — tap to join”
- “We haven’t seen you in a while — come out tonight”

UI STRUCTURE (MOBILE)

Each action item is a card:

Card Example

2 VIP sections available tonight

[Notify VIPs]

[Notify Favorites]

[Notify All]

Card Example

Mike arriving at 9:30 PM

[Send Reminder]

Card Example

12 past clients inactive

[Re-engage]

3. My TABLES TONIGHT

List format:

Time | Section | Customer | Party Size | Status

Example:

9:30 PM | B2 | Mike | 6 | Pending

11:00 PM | C1 | Jennifer | 8 | Arrived

Table Detail (Tap Row)

- Customer Name
- Party size
- Section tier (B2, C1...)
- Minimum spend
- Bottle package
- Add-ons

Status

Booked

Arrived

No-show

4) QUICK SHARE (CORE TOOL)

You set the rule—this is correct.

Share Dropdown

A. Personal Profile Link (STATIC — PRIMARY)

openclub.app/alexis

B. Event Link (DYNAMIC — CONTEXTUAL)

openclub.app/alexis/sekai-friday (only if active event)

:TAB 2: EVENTS Event List Card: Event Name Venue Date “You’re working” Event Detail A) ONE LINK (LOCKED RULE) Each bottle girl gets: 1 event link per event Example: openclub.app/alexis/sekai-friday Customer Landing (IMPORTANT) Single Event Page handles: • Sections (primary) • GA passes (secondary) • Guest list join → no multiple links needed B) Inventory (Read Only) Sections remaining Starting minimums	
TAB 3 Guest List Segments Most Recent (30d) Lost (30+ days) VIP (manual) Favorites (manual) Core Actions (Simplified) No “send event / guest list / section” confusion anymore Replace with: Single Action: Send Link Behavior • Sends Profile link OR Event link (if active) • System decides destination • Push notification → deep link Add Guest	

Name Phone	
TAB 4: WALLET Onboarding Use Stripe Connect (hosted onboarding) No custom UI Summary Available Pending Lifetime Event History Card format: Date Club Tables Commission GA signups Actions Withdraw Transactions Payment Preferences Stripe-managed: - Bank account - Debit card Tips Toggle ON/OFF Shown on: - Profile - Post-booking screen	
TAB 5: PROFILE Photo Bio Instagram Booking link [Tip information] Actions Edit Copy link Share
