

PROMOTER ONBOARDING

1. Landing Page OpenClub The Operating System For Nightlife Buttons: Log In Get Started User selects Get Started	
2. Role Selection Screen Title: How will you use OpenClub? Options: Club Owner / Management Promoter Host / Door Staff User selects Promoter Continue Web app/tablet should show this. For mobile app, it should all be the same including bottle personnel and customer. – how will you use openclub is only for web app users who require a dashboard	
3. Promoter Account Setup Screen Title: Create Your Promoter Account Fields: Full Name Phone Number Email Instagram Handle	

Crowd Type (Multiple Select) Hip Hop College Latin EDM Mixed Crowd Button: Continue	
4. Promoter Profile Creation Screen Title: Build Your Promoter Profile Fields: Promoter Name Example: Antoine Presents Profile Photo Upload Short Bio Example: Promoting the best hip hop and birthday events in Houston nightlife. Button: Continue	
5. Connect With Clubs Screen Title: Connect With Clubs Two options are presented. Option 2 — Request To Promote For Clubs Promoter sees list of clubs in their city. Example list: Sneaks Nightclub Sekai	

Clé NOTO Each card contains a button: Request To Promote Club management will approve or deny later. Button: Continue I dont think this is necessary anymore step 5. I think it becomes a barrier if promoters have to approved for clubs before they can send an event proposal. I think we should scrap step 5 or make it to where they can just follow clubs.	
7. Onboarding Complete Screen Title: You're Ready To Promote Message: Start growing your guest list and selling sections. Button: Go To Dashboard	*Posh contact list integration? *contacts integration?

PROMOTER DASHBOARD
